Registration packets available on website. In the meanwhile, talk it up in your county and invite 4-H members to participate.

Concurrent Educational Workshops

Outdoor Challenge — experience this new and exciting program to demonstrate outdoor skills! There will be a “mini challenge” that prepares you for the real thing. Last summer was the inaugural event, the goal is to double participation in 2010.

Recreation... with a purpose. Recreation should always be part of your monthly club meetings, make it fun! Come learn about the various types of recreation and pick up some new games.

Food Challenge — see how it’s done with hands-on opportunity to “try it out” yourself. Food Challenge is now a state level contest for seniors, juniors and intermediates can participate on the District level.

Team Building — the team of presenters promise not to do the “same old thing”, they are geared up to present new and exciting activities and to teach “the science” behind it all — facilitation, reflection, etc.

Science, Engineering and Technology — all 4-H projects should have SET objectives in place. Come see how our “mad scientists” are making the connections. It’s going to be fun and exciting! And, you’ll learn about the new “Discover Science Method” poster contest.

Flash back...

Games and activities — take a look back at the 50s, 60s, 70s, 80s and 90s. Saturday’s Celebration dance will be a blast from the past — so don’t miss out. Wear a costume to reflect those by-gone days and get ready to “do the hustle” at the “Sock Hop” or “Beat It” with “the Beach Boys”... you get the picture. You snooze, you lose!
Join the fun and bring a costume! **PRIZES** for the best effort.

Fast forward.

If the past is not your style, that’s okay. Go for the future... just Join the fun and bring a costume.
